Congressman Lee Terry From Nebraska Thinks Marsha Is A Pit Bull

[Congressman Lee Terry from Nebraska](#)

Do you think the Democrats will ever come around to this?

"Marsha Blackburn is just tremendous. She is a Pit Bull in our committee on these issues...she is phenomenal. And John Tanner is uhh..."

Representing Nebraska, what do you think about ethanol subsidies?

"I think we can phase those out starting now."

On banning the Air Force from using coal to oil technology:

What can you do now to help JJ?

"If we designed a plan to get us off our reliance on OPEC oil...I will guarantee you the price will go down overnight. Because frankly, the world doesn't think that we have the guts to do what's right and use our own natural resources."

Where are the biggest oil reserves?

What do you think of the windfall profit tax?

"If you want less of something, tax it."
